Appl. Statist. (2000)
49, *Part* 4, *pp.* 599–601

Index of authors, volume 49, 2000

Ahn, H., Moon, H. and Kodell, R. L. Attribution of tumour lethality and estimation of the time to onset of occult tumours in the absence of cause-of-death information 157
Albon, S. D. See under *Catchpole, E. A.*
Anderson, C. W. See under *Walshaw, D.*
Asselin, J. See under *Rancourt, D.*
Balding, D. J. See under *O'Neill, P. D.*
Becker, N. G. See under *O'Neill, P. D.*
Best, N. See under *Congdon, P.*
Bortot, P., Coles, S. and Tawn, J. The multivariate Gaussian tail model: an application to oceanographic data 31
Boys, R. J., Henderson, D. A. and Wilkinson, D. J. Detecting homogeneous segments in DNA sequences by using hidden Markov models 269
Buck, C. E. and Sahu, S. K. Bayesian models for relative archaeological chronology building 423
Casson, E. and Coles, S. Simulation and extremal analysis of hurricane events 227
Catchpole, E. A., Morgan, B. J. T., Coulson, T. N., Freeman, S. N. and Albon, S. D. Factors influencing Soay sheep survival 453
Chen, M.-H., Dey, D. K. and Sinha, D. Bayesian analysis of multivariate mortality data with large families 129
Christiansen, C. See under *Gelfand, A. E.*
Coles, S. See under *Bortot, P.*
——See under *Casson, E.*
Congdon, P. and Best, N. Small area variation in hospital admission rates: Bayesian adjustment for primary care and hospital factors 207
Coulson, T. N. See under *Catchpole, E. A.*
Dey, D. K. See under *Chen, M.-H.*
Dunson, D. B. Models for papilloma multiplicity and regression: applications to transgenic mouse studies 19
——Corrigendum: Models for papilloma multiplicity and regression: applications to transgenic mouse studies 421
Ecker, M. D. See under *Gelfand, A. E.*
Eerola, M. See under *O'Neill, P. D.*
Finkenstädt, B. F. and Grenfell, B. T. Time series modelling of childhood diseases: a dynamical systems approach 187
Fitzmaurice, G. M. See under *Gonin, R.*
Freeman, S. N. See under *Catchpole, E. A.*
Gelfand, A. E., Ecker, M. D., Christiansen, C., McLaughlin, T. J. and Soumerai, S. B. Conditional categorical response models with application to treatment of acute myocardial infarction 171
Gelfand, A. E., Ghosh, S. K., Christiansen, C., Soumerai, S. B. and McLaughlin, T. J. Proportional hazards models: a latent competing risk approach 385
Gelman, A., Goegebeur, Y., Tuerlinckx, F. and Van Mechelen, I. Diagnostic checks for discrete data regression models using posterior predictive simulations 247
Ghosh, S. K. See under *Gelfand, A. E.*
Goegebeur, Y. See under *Gelman, A.*
Goldstein, H., Yang, M., Omar, R., Turner, R. and Thompson, S. Meta-analysis using multilevel models with an application to the study of class size effects 399
Gonin, R., Lipsitz, S. R., Fitzmaurice, G. M. and Molenberghs, G. Regression modelling of weighted κ by using generalized estimating equations 1
Greenacre, M. Correspondence analysis of square asymmetric matrices 297
